

Destination: Excellence - Deadline Reminder

Destination: Excellence is a bundle of programs that can help your organization improve workplace safety, enhance injured worker care and save money on workers' compensation costs. Destination: Excellence's options encourage you to use our valuable complimentary safety services and implement strategies that can prevent accidents and help injured workers recover faster.

Since its introduction last year, nearly 5,000 employers have signed up for at least one of the safety or care programs of Destination: Excellence, potentially saving an estimated \$20 million dollars through incentives, and possibly much more in the future when their premiums decline because of fewer accidents, and lower claims costs.
